

Dear Doctor,

For those who are unfamiliar with our clinic, we have provided this letter of introduction as a professional courtesy. The Rothbart Centre For Pain Care is a medical treatment centre that provides pain care for patients with chronic pain of the head, neck, face, and back. We help our patients by limiting the effect that chronic pain has on their lives.

Our doctors treat chronic headaches, neck pain, back pain, facial pain, and whiplash injuries via nerve blocks and steroid injections. Treatments are covered by OHIP at no cost to the patient. We also may accept WSIB referrals.

If you would like to refer a patient, please fill out our referral form and fax it to us. We will contact the patient directly with an appointment date. If you need a referral form please call us at 416-512-6407 and ask a member of our reception staff to fax one to you.

If you are part of an FHN or FHO circle FHN/FHO on our referral form and our staff will book your patient with an appropriate doctor. For the fastest response please include all information requested at the bottom of the form.

We look forward to assisting you with the treatment of your chronic pain patients. For additional information, or to download our referral form, please visit our website: www.rothbart.com.

Yours sincerely,

A handwritten signature in black ink that reads 'P. Rothbart'.

Peter Rothbart MD FRCPC DABPM
